The Tribeca series is a mix of lamps, pendants and chandeliers, all inspired by the New York City glamour of the late 1930s. The name Tribeca refers to a very popular part of New York in lower West Manhattan, the triangle below Canal Street. The various shapes and designs in the Tribeca series were created in an inspiring creative process where Søren Rose travelled the States, searching for beautiful old lamps and reusable parts to create each unique piece. Collister Table Lamp, forms the latest addition to the series, taking inspiration from the Duane pendant.

About the Designer

Søren Rose is a talented Danish entrepreneur and designer with a past in creative direction within the web and photography industries. His dream of having his own studio came true in 2008 and today he lives in New York where he operates the highly popular Søren Rose Studio. The team encompasses an incredible skill set within architecture, product design and manufacturing. They run a flat organisation, meaning, if the junior designer has the best idea, that's what they go with. Worshipping high quality and sustainable materials, the studio approaches their work with both traditional and innovative craftsmanship.
